RESEARCH / UNIVERSITY OF JYVÄSKYLÄ

Why do drivers look away?

Understanding driver inattention and the effects of in-car technology on attention and traffic safety.

DRIVER INATTENTION / IN-CAR INTERACTION

drive-in-lab.github.io

WHAT WE STUDY

Attention in motion.

We measure, model, and investigate how driver attention changes in traffic, including distraction from infotainment and other in-car interfaces.

01 **Driver inattention and crash risk**

02 **In-car infotainment and distraction**

03 **Human–machine interaction**

OUR FACILITY

A full-scale driving simulator accommodates production cars in controlled, repeatable traffic scenarios with a 180° projected road scene.
